

## CLIENT ESCALATION LIST

All initial service requests should be initiated with the Expedient Operations Support Center (OSC) by phone or e-mail. You may request escalation by phone to the OSC, or you can contact a member of the escalation team directly if necessary. A case number will be provided upon your initial communication with the Operations Support Center and is necessary for request tracking. Please be prepared to give the case number associated with your request when contacting a member of the escalation team. If you do not reach a live individual at a particular level, please leave a voice message before going to the next level. After speaking with a live member of the escalation team, please allow up to 30 minutes to review the status of the ticket and engage technical resources. If you do not receive a follow-up response within that timeframe, please engage the next level of escalation.

Escalation Level	Name	Title	Phone	Email
Initial Report	OSC	Analysts / Technicians / Engineers	888.227.9400	<a href="mailto:service-request@expedient.com">service-request@expedient.com</a>
